

SnapNType™ (for iPAQ™ H3800 & H3900 Series)

Using the SnapNType keyboard, you can write e-mails, notes and enter data into your handheld computer anytime anywhere. It is small, light and compact allowing you to easily put it in your pocket. You can use it anywhere you go; whether it be on the street, on a train, in a meeting, at a conference or lecture. The SnapNType is a truly portable keyboard for mobile professionals and students. With its flexible and compact design, no longer will you need to find a flat surface before you type!

Compatible with

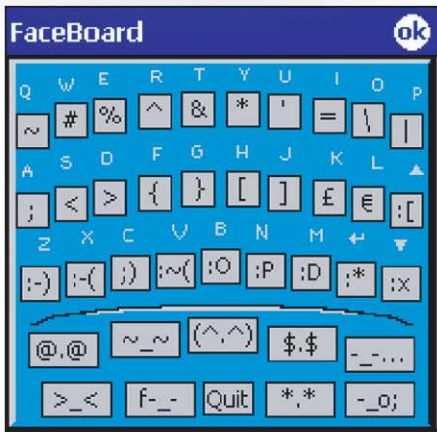

Compaq iPAQ

H3800 series

H3900 series
